## MAISON SOUTQUET

In the heart of Pigalle, the Maison Souquet represents an invitation to hedonism. Romantic, intimate and sensual, this new haunt is a tribute to the Belle Époque. We owe this unique, cosy and playful visual universe to French master decorator Jacques Garcia, which is reminiscent of a 19th-century *bonddle*. Meticulously sourced from antique shops in Brussels, the hotel's period furniture recreates the highlights of this codified universe where the powerful came to "socialise". With a backdrop of mystery, elegance and exoticism, the only five-star in SoFi (South Pigalle) houses 20 rooms – 14 Deluxe, 6 Junior Suites – and 2 apartments blending luxury and fantasy. Each boasts its own décor: 18th century, Empire, Napoleon III, Indian, Chinese, Japanese, Art Deco... An intimate cocktail bar and private basement swimming pool complete this 1865 mansion with its Arabian Nights-inspired lobby. Discover a place where your wildest dreams are born.
